WORKPLACE OPTIMIZATION

USB Deskswitch

Control multiple PCs with
a single keyboard and mouse
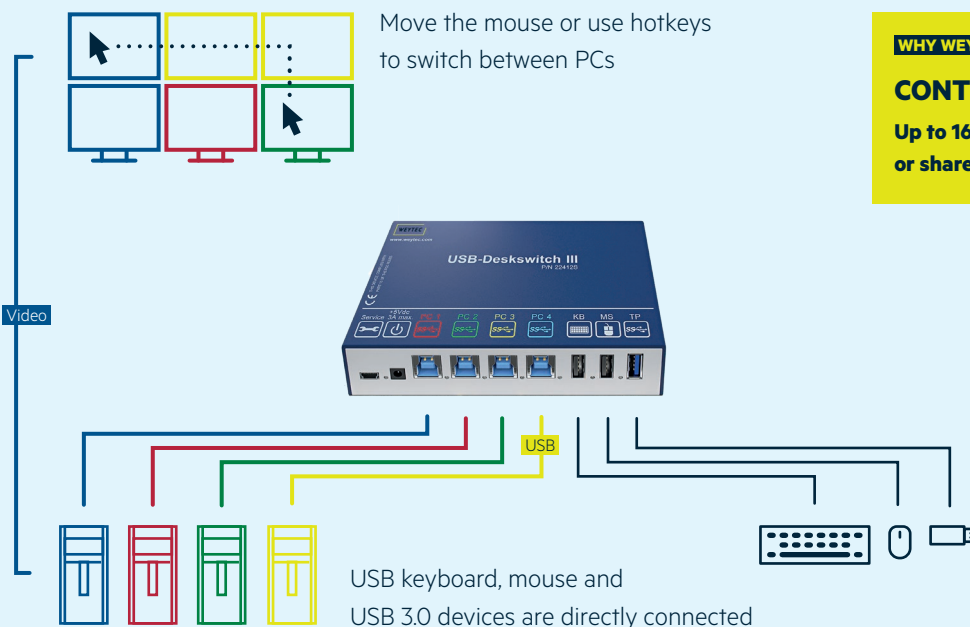

WHY WEYTEC

INTUITIVE MOUSE SWITCHING

... between all your PCs

The USB Deskswitch is a KVM switch that enables users to control all thecomputers at their desk using a single keyboard and mouse. Operators and traders enjoy a fully-integrated environment with intuitive switching between different sources by moving the mouse cursor across the border of a screen. Add extra functionality with value-added Network Copy-Paste software.

- Up to 4 PCs with a single USB Deskswitch
- Up to 16 PCs with multiple Deskswitches
- Individual hotkeys for different sources
- Mouse switching with multi-resolution support (no software required for single-screen sources)
- Network Copy-Paste to share clipboard information between PCs in the same network (optional)
- Access USB 3.0 devices from up to 4 PCs
Functionality

Move the mouse or use hotkeys
to switch between PCs
